Career Issues Research

Region: _____

Find one issue or concept that is related to your career within this region. Think about this region from the perspective of your career. What issues or concepts would provide opportunity, present issues, or pose a problem your career could help solve? (For example, if your career is a farmer, you could research the connection between farming and climate types in the region or the rise of organic farming.)

| |
|---|
| Find a credible resource (article, website, documentary, etc.) that explains this issue/concept. Cite the source. |
| Is it a primary or secondary source? |
| Summarize the issue/concept. (Think about it from a geographic and career perspective.) |
| Describe how this issue/concept is related to your career. |
| If you were to work in this career in this region, how would this issue/concept affect your job? |
